95001 SUPPLEMENTAL INSPECTION REPORT NO. 05000293/2011407

Dear Mr. Smith:

On September 16, 2011, the U.S. Nuclear Regulatory Commission (NRC) completed a supplemental inspection pursuant to Inspection Procedure 95001 at your Pilgrim Nuclear Power Station to follow up on previous security inspection findings. The enclosed inspection report documents the inspection results, which were discussed at the exit meeting on September 16, 2011, with you and other members of your staff. The NRC was informed of your readiness for the inspection on June 30, 2011.

The inspection examined activities conducted under your license as they relate to security and compliance with the Commission's rules and regulations and with the conditions of your license. The inspectors reviewed selected procedures and records, observed activities, and interviewed personnel.

As a result of this inspection, no findings were identified.
